Projects

RecipeXpress – A Full-Stack Recipe Sharing Platform

Developed a responsive MERN stack web application where users can register, log in, upload, edit, and delete recipes with images. Integrated protected routes, profile dropdowns, and real-time UI feedback to enhance user experience. Followed mobile-first design principles using custom CSS and deployed the frontend on Vercel and backend on Render.

Technologies: React.js, CSS3, Node.js, Express.js, MongoDB, Cloudinary, JWT Auth, Multer, Vercel, Render

PasteCraft – Lightweight Notes and Snippets Tool

A responsive React app for creating, editing, and managing personal notes or code snippets. Includes real-time toast notifications, instant clipboard copy, and local data persistence using LocalStorage — all built without a backend. Styled with Tailwind CSS for a clean, mobile-friendly user interface.

Technologies: React, Tailwind CSS, JavaScript, LocalStorage, React Hot Toast
