Objective

Motivated Software Developer with experience building responsive web applications using React.js, JavaScript, Node.js, and MongoDB. Passionate about developing scalable, user-friendly applications and continuously learning modern technologies.

Projects

RecipeXpress – Full-Stack Recipe Sharing Platform

- Developed a responsive **MERN-stack** application with **JWT authentication**, Cloudinary image uploads, and full CRUD functionality.
- Implemented protected routes, user profiles, and real-time UI feedback using **React** to improve user experience and navigation.
- Deployed the frontend on **Vercel** and backend on **Render** following RESTful API architecture and mobile-first design principles.

Links: GitHub | Live Demo

PasteCraft – Lightweight Notes and Snippets Tool

- Developed a responsive React-based notes application with persistent storage using **LocalStorage**.
- Integrated real-time toast notifications and clipboard-copy functionality to improve usability and workflow efficiency.
- Built a clean, mobile-friendly interface using **Tailwind CSS** with focus on accessibility and user experience.

Links: GitHub | Live Demo

Transcriber Sum – YouTube Transcript Summarizer

- Developed an NLP-based transcript summarization system using **Python** and transformer models for concise content generation.
- Built a **Flask**-based backend to extract YouTube transcripts and generate concise and context-aware summaries.
- Designed a lightweight **HTML/JavaScript** browser extension to enable real-time summarization directly from YouTube videos.

Technical Skills

- Programming Languages:** JavaScript, Python, C++
- Frontend:** HTML, CSS, React.js, Tailwind CSS, Bootstrap
- Backend:** Node.js, Express.js, Flask, REST APIs, JWT
- Databases:** MongoDB, MySQL
- Tools and Technologies:** Git, GitHub, VS Code, Vercel, Render

Education

B.E. in Electronics and Telecommunication Engineering

June 2024

Shrimati Kashibai Navale College of Engineering, Pune

CGPA: 7.76 / 10

Achievements

- Published “Transcript Summarizer of YouTube Videos Using Deep Learning” in the *Journal of AI Research and Advances* (STM Journals) and received the Best Paper Award (2024).
